1. Ivan Marius Claudiu – Expert SIPOCA
2. Răzvan Deșliu – Expert SIPOCA
3. Cătălinoiu Adriana – Expert SIPOCA
4. Sabin Rotaru – Expert SIPOCA
5. Cătălin Balan – Expert SIPOCA
6. Mircea Negruță – Expert SIPOCA

## ***Grilă de interviu utilizată pentru a ghida discuția cu actori externi***

*Objective 1: Development of OSIM's capacity in implementing an industrial property policy oriented towards economic development*

- a) How do you see the idea of expanding OSIM's responsibilities by creating a department dedicated to post-registration services and valorisation?
- b) How do you evaluate the creation of a new IT system to support the management of all protection claims, including new technologies in data management and analysis (big data), cloud databases and user support services?

*Objective 2: Create a public ecosystem conducive to the exploitation and management of industrial property*

- a) How do you see the involvement of the Government and public authorities in stimulating the exploitation and use of industrial property in Romania?
- b) What do you think about promoting the importance and specificity of industrial property in educational institutions? Do you consider it appropriate to develop and implement study and research curricula in the field of industrial property?

*3. Objective 3: Stimulating the innovative capacity of the Romanian economic and research environment, in order to increase economic competitiveness*

- a) To what extent do you consider that actions are opportune in order to evaluate the economic capitalization of IP titles in Romania? Which such actions do you think would be most appropriate?
- b) What do you think about the use of other elements of industrial property (e.g. trade secrets)?
- c) What do you think about the creation of an innovation exchange (somehow similar to stock exchange)? What is your understanding regarding this term?
